DBS
DIGITAL BUILDING SERVICES

DBE CERTIFIED — DISADVANTAGED BUSINESS ENTERPRISE

MBE CERTIFIED — Minority Business Enterprise
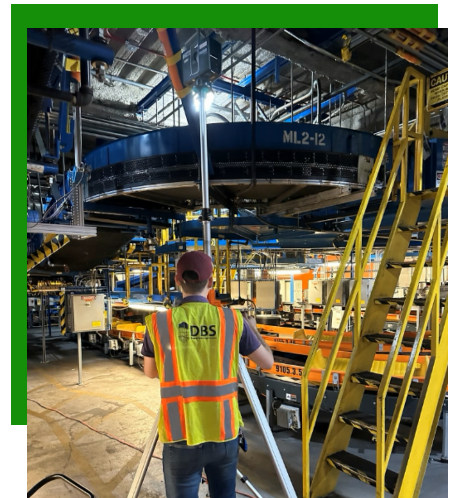

Company Background

Digital Building Services, LLC (DBS) is a national construction, architectural and engineering support firm that provides detailed and accurate building project information with a focus on aviation and complex MEP environments.

Our Services

Digital Building Services is tasked with helping AEC professionals by providing accurate documentation of construction projects while helping mitigate risks and reduce costs through the services listed below.

> **3D Laser Scan and Modeling**

> **BIM/VDC Consulting**

> **Retail Site Survey**

> **FAA Drone Scanning**

Premier Partner for A/E/C Companies

We perform on-site imaging and acquire consistent data under strict guidelines. Then we transform those findings into standardized and highly accurate as-built drawings and solid model imagery that becomes the foundation for more efficient and error free design, engineering, and construction information.
